Tr

Let's have a look at your article. Going to thread my commentary below as I read it.

"...to comment on such matters, and criticized when I hesitate to do so (although God only knows why I would hesitate)."

Is this an admission that Jews are beyond reproach? History demonstrates what awaits on the other side of any negative criticism...

"then you require a victim (in the right-wing case, European culture or some variant) and a perpetrator (Jews)."

So we are not permitted to notice antagonisms. Isn't this a natural biological response to hazards? And ask yourself why Jews - why not blonds or ppl with green eyes?

"You can claim responsibility for the accomplishments of your group you feel racially/ethnically akin to without actually having to accomplish anything yourself."

All Jews demand our guilt for the Holocaust despite .0000001% of them actually were present in Nazi Germany. So?

"so your unrecognized resentment & cowardly & incompetent failure to deal with the world forthrightly can find a target"

Your proposition: if you dislike Jews then you can't deal with the world.

Logically false. Dealing is not a problem, **LIKING** it is. It is undesirable.

"...and you can feel morally superior in your consequent persecution."

The end goal is a feeling of superiority? 🤪 You are exactly wrong. Let me illustrate this point with the words of the world's biggest anti-Semite:

**"Pride in one's own race - and that does not imply contempt for other races - is also a normal and healthy sentiment. I have never regarded the Chinese or the Japanese as being inferior to ourselves. They belong to ancient civilizations, and I admit freely that their past history is superior to our own. They have the right to be proud of their past, just as we have the right to be proud of the civilization to which we belong. Indeed, I believe the more steadfast the Chinese and the Japanese remain in their pride of race, the easier I shall find it to get on with them."**

~ ADOLF HITLER

"New York Jews, in particular, snap up a disproportionate number of Nobel prizes"

Do some research into the Nobel Committee and you will find a disproportionate amount of Jews. Jews are getting them because Jews are giving them. Tribalism.

"Jews are disproportionately eligible for admission at elite universities, where they, along with Asians, tend to be discriminated against."

Discrimination largely from BDS Arabs for Israeli apartheid.

Fact: faculty & students of Ivy League schools are disproportionately Jewish

### **Donations to Universities**

Jews are among the most generous donors to universities. Having recently completed a college tour with my son, I was astounded by the number of new buildings and new schools being named after Jewish donors. At the University of Chicago, Cornell and Northwestern, to name but a few, the medical schools are named after Jewish donors. At NYU and the University of Michigan the business school are named after Jewish donors. Countless Jews have endowed university chairs. At the University of Pennsylvania, Jews have created half a dozen endowed professorships in the arts and humanities alone. Jews have also endowed research institutes and departments in universities across the country. Almost all of the major Ivy League universities have received substantial donations from Jews. A review of gifts to universities by Jewish donors in 2006 alone quickly exceeds \$200 million. Imagine what even a quarter of that money could do for American Jewry: it is enough to transform all of our Hebrew schools and fund all major youth groups; enough to make one year of Jewish camping affordable for all American Jews; enough to send 100,000 young Diaspora Jews to Israel on a birthright trip, enough to dramatically improve the day school movement and enable thousands of children, who otherwise could not afford to, to attend day schools. Instead, Jews are currently making breathtaking contributions to universities where their emphasis is on large and medium-sized perpetual endowments.

Though Jewish giving to universities is a testament to Jewish integration in American society, Jews should consider very carefully whether making mega-gifts to endowment funds is the best place for their contributions. In my view, those Jews who wish to donate to universities should concentrate on operating funds. The reasons are twofold. First, endowment funds are by definition perpetual assets of universities, yet universities are changing institutions. Do you want your money to continue to fund institutions when these no longer represent your values? We Jews should ask ourselves this question in light of the history

"is the fact that smart people are working hard for our mutual advancement really something to feel upset?"

What do you consider advancement - gender-altering hormones for kids, and the destruction of the family unit?

We are trending towards Jewish preferences, not our own.

2001-2016 GALLUP VALUES AND BELIEFS POLLS

"The significantly higher than average IQ of Ashkenazi Jews"

Scientific consensus is that at least 50% of intelligence is attributed to genetics. If Jews are genetically related to Arabs (see pic), why aren't Arabs scoring higher on IQ tests? It's rubbish!

## Jews and Arabs Share Recent Ancestry

By Ann Gibbons | Oct. 30, 2000 , 7:00 PM

**COLD SPRING HARBOR, NEW YORK**--As fighting continues in the Middle East, a new genetic study shows that many Arabs and Jews are closely related. More than 70% of Jewish men and half of the Arab men whose DNA was studied inherited their Y chromosomes from the same paternal ancestors who lived in the region within the last few thousand years.

"if a very complex job or role requires an IQ of 145, three standard deviations above the mean & characteristic of less than 1% of the general population, then a group with a higher average IQ will be exceptionally over-represented in such enterprises."

CNN is complex? NBC?

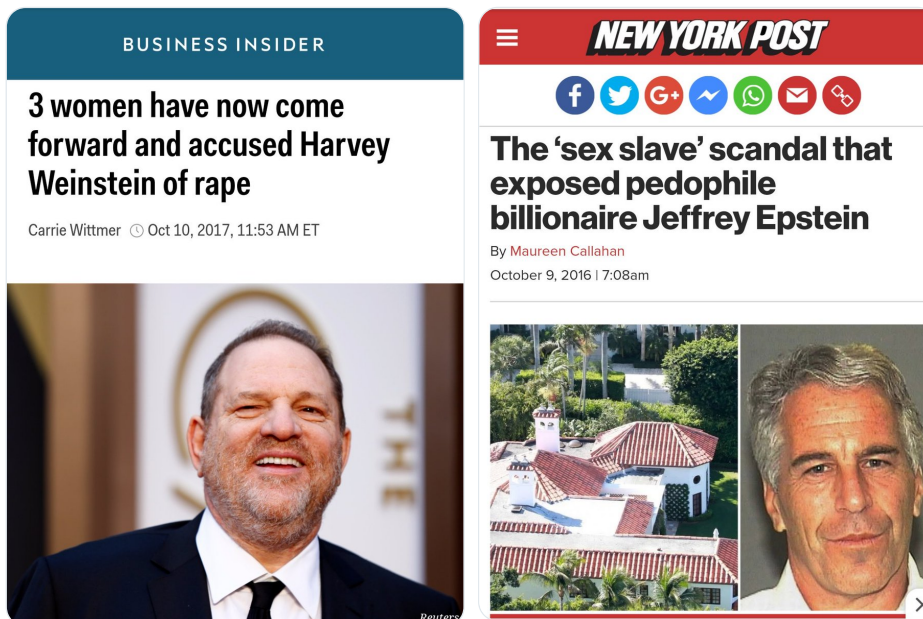

"Openness to Experience has often been considered the reflection of general cognitive ability or intelligence in personality."

Have you (or the author of this pseudoscience) tested whites vs Jews? Assumptions are not proof.

"liberals/left-wingers tend to have the reverse pattern (low Conscientiousness (particularly aspect Orderliness) and high Openness to Experience)"

I am open to experiences that don't violate my morals. And when a group of people have no morals, they're open to everything. 🤡

Anthony Weiner Gets 21 Months in Prison for Sexting With Teenager

"Jewish people are over-represented in positions of competence and authority because, as a group, they have a higher mean IQ"

Even if Jews have a higher IQ, it's been mathematically shown that they're still disproportionately overrepresented, especially at Ivy League schools 🗨️

One might simply suppose that this is due to higher Jewish IQ. However, on the basis of Richard Lynn's estimates of Ashkenazi Jewish IQ and correcting for the greater numbers of European Whites, the ratio of non-Jewish Whites to Jews should be around 7 to 1 (IQ >130) or 4.5 to 1 (IQ > 145). Instead, the ratio of non-Jewish Whites to Jews is around 1 to 1 or less. (See [here](#).)
